What's new with this mod?

This is a horror mod focused on the player exploring the environment, they are not random scares or creatures chasing you like typical Dwellers. This mod wants to focus on giving the feeling that the old versions of Minecraft gave. Without bothering the player but giving them the feeling that something is not right. The player has the decision whether to advance or not. It is an environmental and psychological mod with surprises that the player will have to experience. The events are completely random and configurable to the player's taste.

What is recommended to play this mod and have a good experience?

I recommend having textures and sounds from Minecraft Alpha or Beta. Classic mods like
